YEARBOOK MESSAGE

It is indeed a privilege to congratulate the members of the Class of 1972 upon their successful completion of their high school programs. This class has attained a unique record, including successful group activities along with many individual accomplishments in various fields of endeavor.

As you leave Mountain View, you enter a confused, complex, and yet challenging world. Problems requiring deeper understanding, directed leadership, broader research, and hard work await you, the leaders and followers of tomorrow. It is our hope that the experiences which you have undergone while in school have helped prepare you for the tremendous responsibilities which you now undertake. Friendships were established, subject materials were mastered, activities were enjoyed, attitudes were developed, ideals were created . . . all with the ultimate objective of being helpful to you in future planning and decision.

Speaking for the entire faculty, I offer our continued interest and service. We wish each of you well, and we stand avilable to assist you at any time.

May each of you be happy and successful . . . may each of you be inspired to accept all of the challenges of the future . . . and may each of you develop a personal philosophy of life which would include as its foremost aim the betterment of the world through constant service to his God and his fellow man.

CLAUDIA MARIA PALOMO

I came from Guatemala City under the sponsorship of the International Fellowship Exchange Students Program.

Guatemala a little country in Central America, is approximately as large as the State of Pennsylvania. Its temperature during the year is between the 60's. The language spoken in Guatemala is Spanish. However, the natives will speak their own ancient dialects.

I am the fourth child in my family. My father is the Chief Doctor in one of the Social Security Hospitals while my mother is a retired kindergarten teacher. My older sister Beatriz, is married and she is currently living with her husband Freddy in Germany. I have two brothers, the older, Rony, is going to the University of San Carlos of Guatemala, and the other, Ricardo, is studying in the University of Minnesota. My younger sister, Sabrina, is still in Grammar school.

I hope to finish school in October. Then, I want to work as Bilingual Secretary and study Business at night.

THE AWAKENING

Wide-eyed and brimming with happiness
We play in a sphere of innocence,
Embracing life to absorb
A dream with which we begin our
learning.
A trickling stream leads us to a new
world.
We accept this challenge bearing
open arms.

JOANNE O'HOP

JoAnne spent the summer of 70'-from June 17 to September 13-in Sao Paulo, Brazil.

In 1889 this country proclaimed itself a republic and in 1945 joined the U.N.

Sao Paulo is a modern lively city compared in construction with the skyscrappers of New York. The climate is mild throughout the year and snow never flys. The people are either very wealthy or exceedingly poor. and there seems to be no middle class as we know it. These people are lovers of fine foods and great sports, where soccer predominates, and you live on beans and rice.

While in Brazil, I lived with a Portuguese family, Hugo Alves Pequeno, in a very modern high-rise apartment. There were two sisters, and one brother along with two maids. The family taught we many brazilian ways, and we spent much of our time sleeping in the sun.
